2. Open the Echowell eSync app

Switch on the bluetooth mode on your smartphone and open the app. Otherwise, the app will remind you to activate bluetooth when you open it.

Android

Don't connect with the app via smartphone settings, it's mandatory to connect through the app.

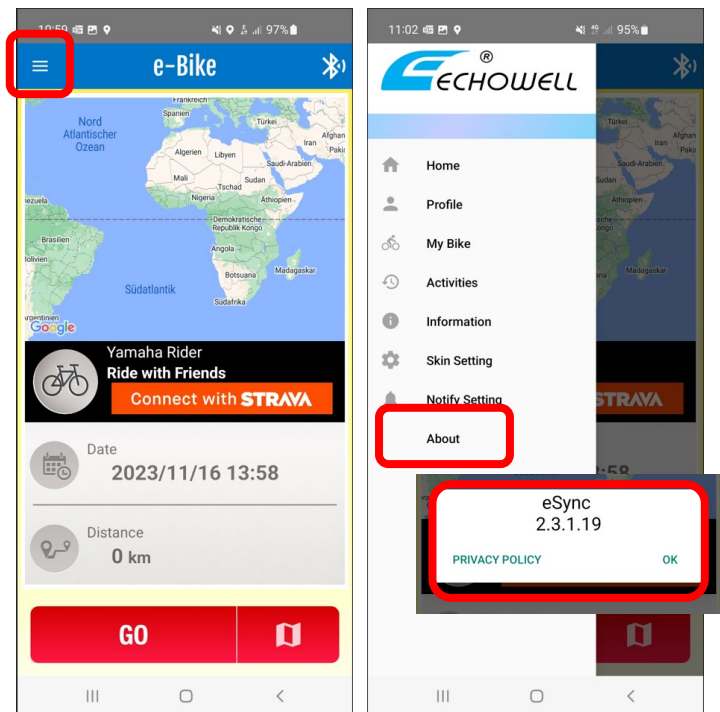

IOS

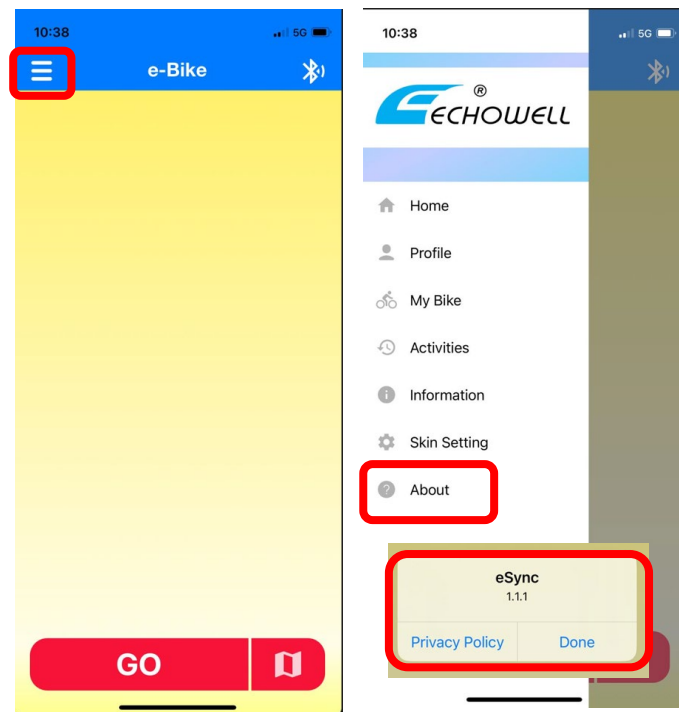

3. Check the app for latest software version

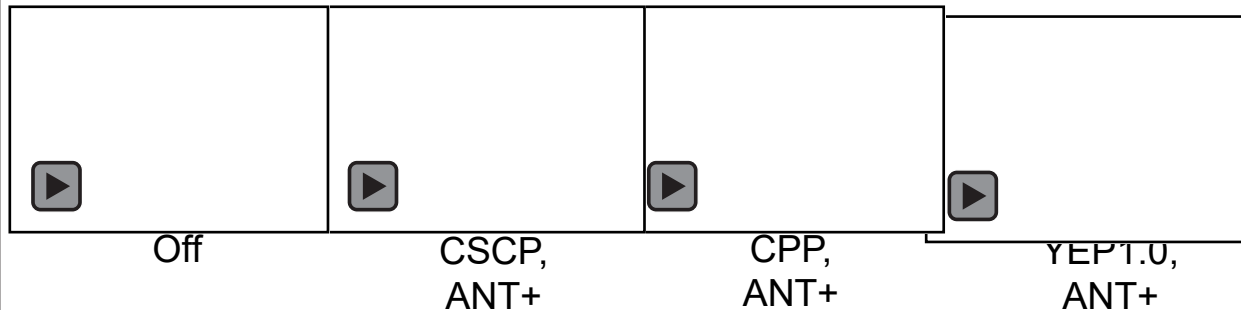

Make sure you're using the latest software version of the app. Click on the "home button" to open the menu and continue with a click on the "About" option. Echowell is recommending for **Android** version **2.3.1.19** and for **IOS** **1.1.1** or later.

Android

IOS

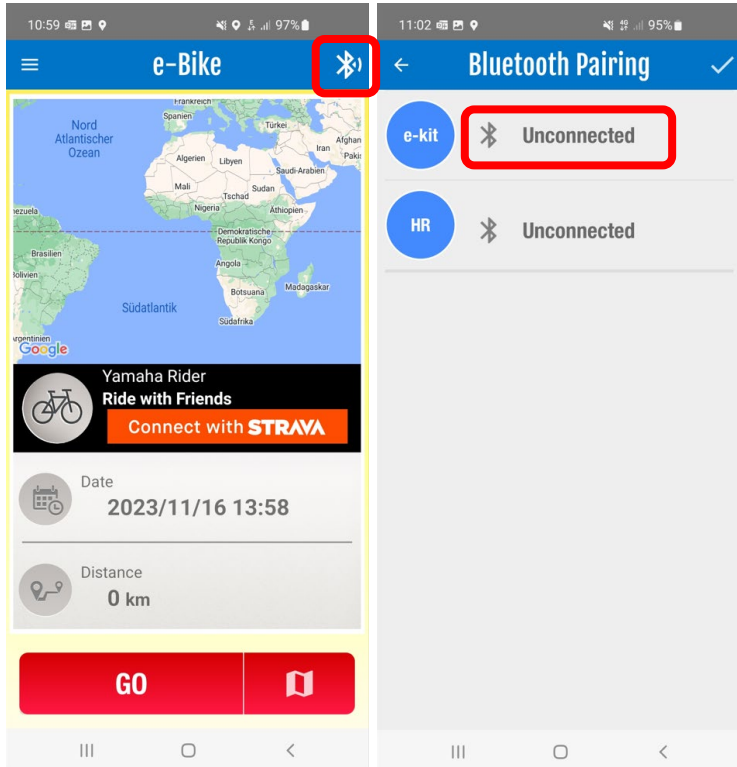

Profile	Detail
Off	-
CSCP, ANT+	Cycling speed and cadence profile, ANT+
CPP, ANT+	Cycling power profile, ANT+
YEP1.0, ANT+	Yamaha e-bike profile, ANT+

***Even if the power is turned off, the setting will be kept.**

5. Connecting the app with Interface - X

It's important to connect the smartphone with Interface – X through the app and not via the dedicated smartphone bluetooth settings.

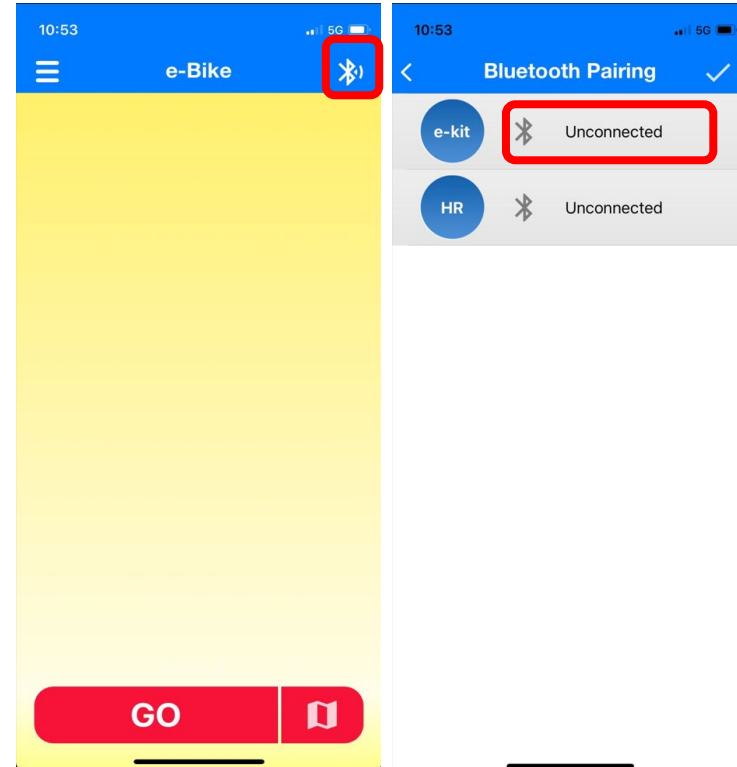

Android

Click to connect on the bluetooth symbol at the home screen of the app and continue choosing the „unconnected e-kit“ option.

**You can disconnect the bluetooth connection the same way.*

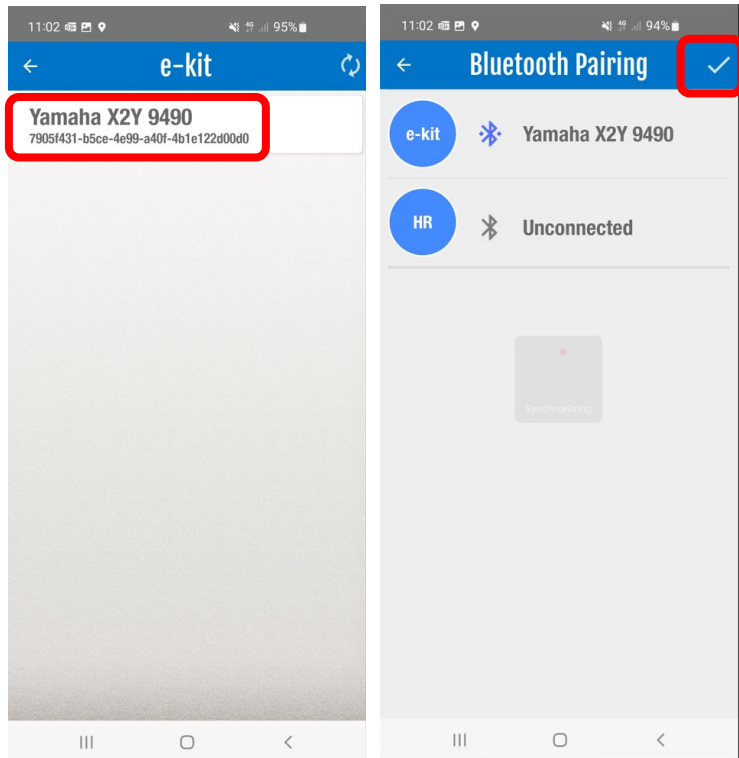

IOS

6. Connecting the app with Interface - X

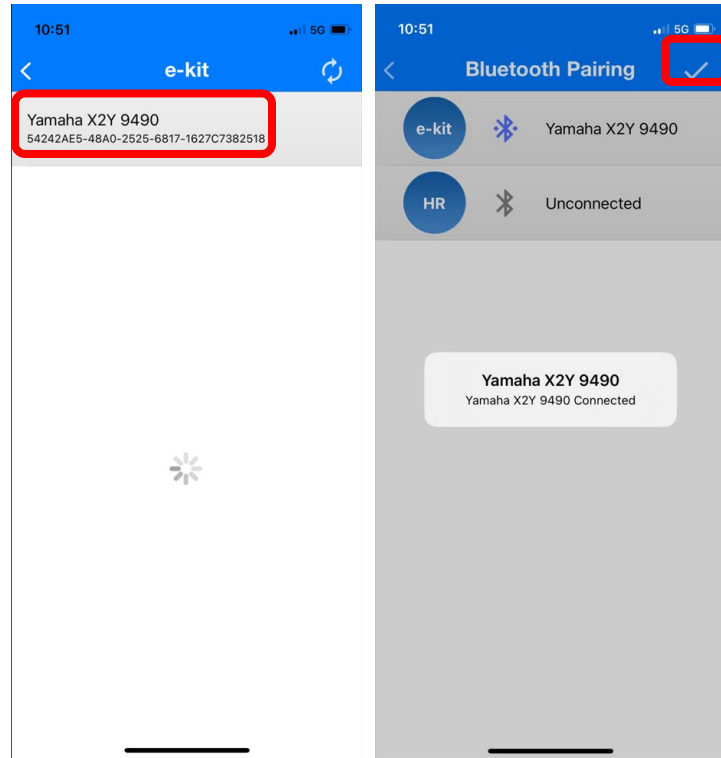

After searching for bluetooth devices will the available Yamaha e-kit's in your area occur on your display. Click on the e-kit to connect.

Android

It's mandatory to confirm the connection with a click on the check mark on the right side on top. The IOS version will show you a short notification. You can confirm the connection afterwards.

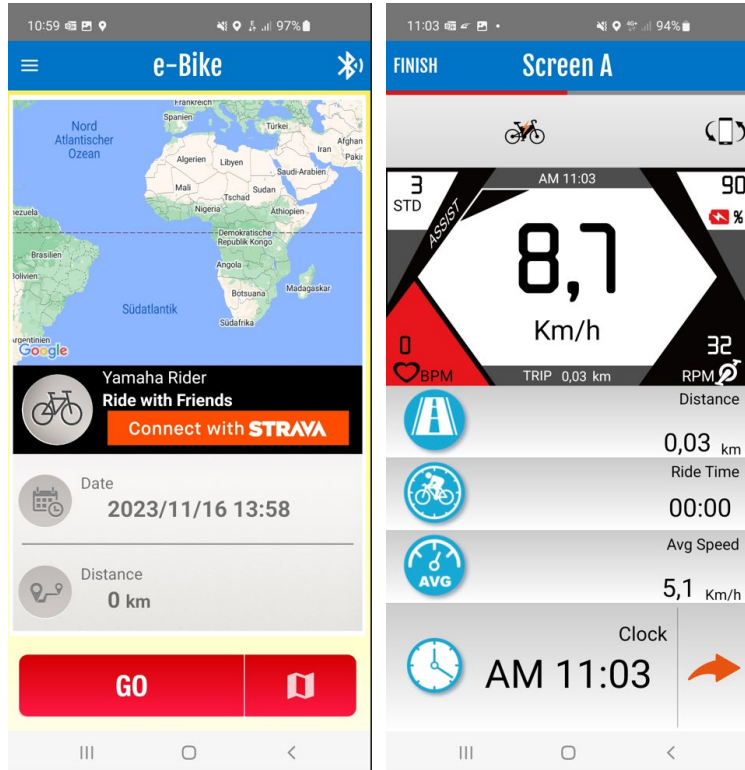

IOS

7. Using the app

The app display will switch back automatically to the home screen after connecting. To use the app, click on the “GO button” and the screen will switch to riding mode.

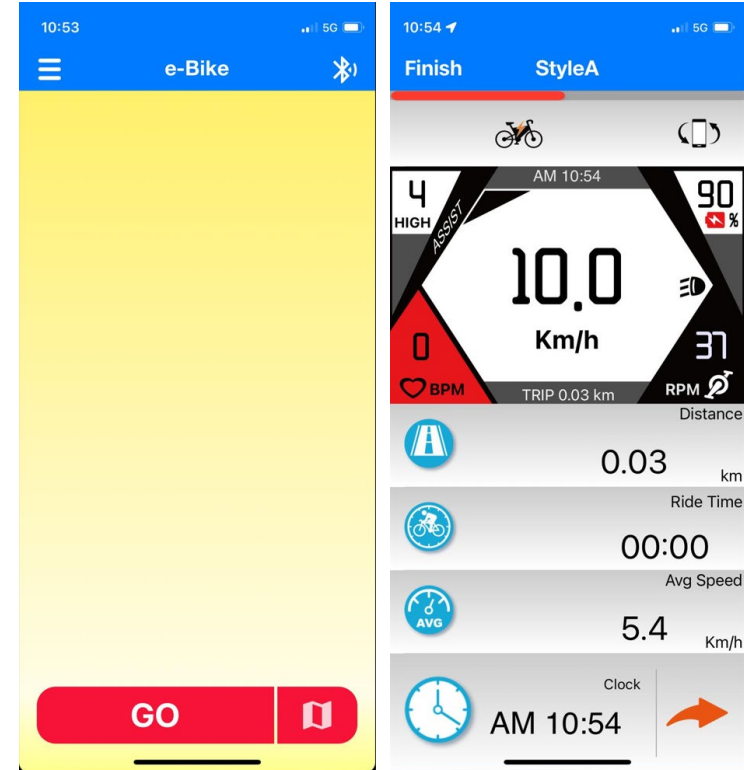

Android

Displayed informations are:
